## The World's Most Powerful Low Priced Car 31½ H.P.

ANNOUNCING THE NEW SERIES

**\$635** <sup>75 B</sup> *Overland* **\$635**  
f.o.b. Toledo

This newest Overland is the world's most powerful low-priced car.

It has a 31½ horsepower en bloc motor that is a perfect marvel for speed, power and endurance.

By increasing the bore of the motor from 3½ to 3⅞" we are able to offer a power plant which at 1950 R.P.M. develops full 31½ horsepower.

Tests under every condition in all parts of the country demonstrate that it easily develops better than fifty miles per hour on the road.

Speed of course varies under different conditions, but in practically every instance it has been getting fifty miles an hour and with ease.

We have scores of telegrams showing that eighteen to twenty-five miles per gallon of gasoline is not unusual.

The performance of this car is almost beyond belief.

Take any other low-priced car on the market. Pit it against this new Overland. Compare them for sheer speed, for abundance of power, for riding comfort

and economy, and you'll find this car will back anything else clean off the boards.

That's a strong statement, but a fact nevertheless.

Try it yourself and see.

Here are more important facts.

It has four-inch tires which are more than generous for a car of this size.

Not only has it a large and roomy body, but it has an attractive, up-to-date streamline body.

It has the latest and most improved system of ignition.

It has the cantilever springs—the easiest riding springs in the world.

What's more, it's complete. Not a thing to buy. You get the finest Auto-Lite

electric starting and lighting system, magnetic speedometer, one-man top, demountable rims and practically every accessory found on the highest priced cars.

From a driving standpoint, the new car is ideal. It's light, easy to handle and anyone can drive it.

Take one look and be convinced.

And mark these words—the car is destined to be regarded and referred to as one of the really great achievements of the great automobile industry.

Yet it only goes to prove how big production can cut cost and save you money.

First come, first served. Place your order now.
